

We Can Provide

● Evaluation and Support

Substance abuse evaluations for those charged with or convicted of substance related offenses, or for those who are seeking help. We provide referral services to appropriate treatment programs and support services for those suffering from substance abuse and the people who care about them.

Consultation and Networking

Consultation for private individuals with questions relating to substance abuse, treatment options and self-help groups. Information and assistance for businesses developing or updating their substance abuse policies or Employee Assistance Program. Technical assistance and resources for area coalitions, healthcare providers and school systems.

Prevention Programming

Prevention programming is offered to all Clayton County School Districts: Central Community, Clayton Ridge, Ed-Co, MFL Mar Mac, Starmont, Guttenberg St. Mary's and the Alternative High School.

Informational Programs

Presentations to schools, professional, youth, service, health care providers, businesses and church groups on :

- Alcohol use and abuse
- Illegal drugs
- Prescription Medications
- Over-the-Counter Medications
- Drug-free workplace programs
- Skill Building
- Custom designed programs for the audience

It's no accident that we're here!

In 1981, a small group of caring citizens in Clayton County recognized some of their friends, family, and neighbors needed help with substance abuse problems, and decided it was time to address the issue.

Substance Abuse Services for Clayton County, Inc. was organized as a home-grown, locally owned agency. Since our beginning we have remained locally based and operated, locally responsive and supported. We are here so the residents of Clayton County who are struggling with issues related to substance abuse have a nearby resource to use in their recovery efforts.

It is our mission to provide education and assistance to the residents of Clayton County to inspire them to make positive decisions regarding substances and choices and to ultimately lead healthy lives.

It is our vision that SASCC will make a positive impact on Clayton County residents by offering accurate information, proven programming and support services which best meet the needs of Clayton County and the surrounding area.

It is our philosophy that strong community leadership is necessary to build the momentum and encourage community investment in the solution of its social and health problems. This is particularly true in the struggle against substance abuse.

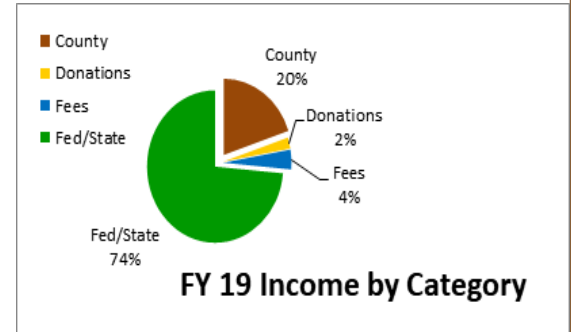

These policies were adopted by the Clayton County Board of Supervisors and Substance Abuse Services for Clayton County, Inc. to provide direction for Clayton County in dealing with substance abuse.

Our quality past is why we're hopeful for the future!

We believe that...

- *alcohol and other drug dependencies are health problems needing evaluation and treatment;*
- *lawful, responsible use of alcohol is a right and privilege, and that abusers of alcohol and other drugs need to face the consequences of their behavior;*
- *the pursuit of happiness means social responsibility; This means respecting the rights and welfare of others and their property.*
- *alcohol and other drug use can be harmful, therefore preventive education is necessary, especially for young people;*
- *others affected by alcohol and other drug abuse, especially families, need and deserve help;*
- *alcohol, other drugs, and driving do not mix and should not be tolerated;*
- *prospective parents should abstain from alcohol and other drugs;*
- *that those who choose to or need to abstain should not be pressured to use.*

Substance Abuse Services for Clayton County, Inc. is a private non-profit agency governed by a board of nine Clayton County residents and incorporated in the State of Iowa. We are funded by federal, state and county money, fees for services, donations from municipalities, individuals, service clubs and other organizations. We provide some services free of charge to Clayton County residents because of the generous contributions of many. If you would like to contribute, your donation would be greatly appreciated.
